EDUCATION

Georgian College   Barrie, CA
Diploma in Computer Programming; GPA: 3.7/4.0   *May. 2021 – Present*

Government Engineering College   Modasa, India
Bachelor of Engineering in Information Technology; GPA: 3.00 (6.90/10.0)   *May. 2014 – May. 2018*

EXPERIENCE

Freelance   Remote
Mobile Application Developer   *Apr 2021 - Present*

- Designed and developed a mobile application for Android mobile devices with extensive user interface development.
- Implemented unique design for portrait and landscape mode.
- Used web views, list views & populated lists to display the lists from the database using simple adapters.
- Responsible for consuming the REST services, getting JSON responses, and parsing them to get the required information.
- Integrated location-based services using Google Maps API to display locations of the nearest stores.
- Implemented customized web view component to load an SWF file and HTML data.
- Implemented the required GUI by making modifications to the XML files.

iCoderz Solutions Private Limited   Ahmedabad, INDIA
Mobile Application Developer   *May 2019 - Sep 2020*

- Implemented features for various applications in Java, Kotlin, and C++.
- Determined architectural and product design details for open-ended tasks or specifications.
- Collaborated with quality engineers, user research, product management, design, and support teams to ensure quality in all phases of app development.
- Worked closely with core technology teams and other platform teams to balance cross-platform consistency with Android optimization.
- Wrote elegant, self-documenting code, easy to read and adapt for other developers.
- Reviewed design specs and engineering docs and provide feedback.

Amar Technolabs Private Limited   Ahmedabad, INDIA
Mobile Application Developer   *Nov 2018 - Apr 2019*

- Developed native Android applications and frameworks using Kotlin and Java.
- Defined and implemented robust app architectures and complex user interfaces.
- Applied expert knowledge of Android system frameworks to solve novel problems.
- Collaborated with designers, engineers, and product managers to build great experiences.
- Ensure that apps are tested to meet total performance requirements.
- Documented the application before and along with the development phase considering the software development life cycle [SDLC].
